

Rivers Collection LUXURY VINYL FLOOR MAINTENANCE GUIDE

CARE INSTRUCTIONS

RESIDENTIAL & COMMERCIAL INSTALLATIONS

To keep the lasting shine and fresh feel of your investment for as long as possible, we recommend that you:

DO:

- Wipe up spills as soon as possible. Never use highly abrasive scrubbing tools on any resilient floor.
- Wash occasionally with a Resilient Floor Cleaner. For residential installations, we recommend PH Neutral Multi-Surface cleaner. For commercial installations, use a commercial grade cleaner.

DON'T:

- Use detergents, abrasive cleaners or “mop and shine” products – they may leave a dull film on your floor.
- Use paste wax or solvent-based polishes.
- Use rolling casters as they can damage the floor.
- Use a beater bar when vacuuming because it can visibly damage the floor surface.
- Use highly abrasive scrubbing tools.

PROACTIVE PROTECTION FOR YOUR FLOOR:

- When moving appliances or heavy furniture, lay a plywood panel on your floor and “walk” the item across it; this will help protect your floor from scuffing and tears.
- Use floor protectors on furniture to reduce indentation. As a general rule, the heavier the item, the wider the floor protector needed.
- Place a walk-off mat at outside entrances to reduce the amount of dirt brought into your home. We do not recommend the use of rubber- or latex-backed mats (except where noted) because the chemical (antioxidant) they often contain can permanently stain your floor. We suggest an anti-staining vinyl-backed mat or a woven rug that is colorfast.

IMMEDIATELY AFTER INSTALLATION:

- When the installation is completed, please follow the installation instructions for maintaining temperatures thereafter.
- Do not scrub or wash your floor for five (5) days.
