WARRANTY OWNER RESIDENTIAL & COMMERCIAL INSTALLATIONS

This Limited Warranty extends only to the original end-user. Our warranties are NOT TRANSFERABLE.

WHAT IS COVERED BY THIS LIMITED WARRANTY?

RESIDENTIAL INSTALLATIONS

For residential installations, Vius warrants its regular (first quality) floor products, so long as the product is installed according to the installation instructions and the approved application listing, to be free from manufacturing defects as of the date of purchase and for the time period set forth below in the LVT Flooring Limited Warranty Periods” section of this document. Please see the LVT Flooring Limited Warranty Periods” section to review the Limited Warranty Period for your specific brand/product.

The flooring product:

- Will not contain manufacturing defects
- Will not wear-through*
- Will not stain from common household stains
- Will not rip or tear from normal household use
- Will not permanently indent from normal household use**
- Will not bottom-up discolor from underlayment panels (including lauan), or from alkali, mold or mildew growth
- The edges of the flooring will not curl or cup

Multi-residential and/or apartment complex installations by builders, contractors, or anyone other than the consumer are specifically excluded from Residential Warranty coverage and are considered light commercial under the Commercial Warranty.

* “Wear-through” is defined as wear and tear of the wear layer resulting in damage of the printed image due to normal household use.

** We recommend using floor protectors. As a general rule, the heavier the item, the wider the floor protectors should be.

COMMERCIAL INSTALLATIONS

For commercial installations, Vius Flooring warrants its regular (first quality) floor products, so long as the product is installed according to the installation instructions and the approved application listing, to be free from manufacturing defects as of the date of purchase and will not wear through the wear layer resulting in damage of the printed image for the time period set forth below in the "LVT Flooring Limited Warranty Periods" section of this document. Please see the "LVT Flooring Limited Warranty Periods" section to review the Limited Warranty Period for your specific brand/ product.

What commercial applications are recommended for Vius Flooring? Durability, ease of installation and care make many of our products great options for commercial applications. When choosing a floor, consider the space where it will be installed and select a wear layer and visual that will withstand to the expected level of foot traffic. Guidelines are included below. If you have questions about a specific application, please contact your Vius flooring representative prior to purchase or installation.

Non-intended Applications

- Anywhere commercial cleaning machines will be used. (Floating/Loose Lay applications)

WHAT DOES 100% WATERPROOF MEAN?

RESIDENTIAL & COMMERCIAL INSTALLATIONS

When exposed to water, the flooring is waterproof and will not swell, buckle or lose integrity. If exposure to water occurs, the flooring installation system (when installed with full-spread adhesive) will continue to create a secure bond. In the case of standing water or flooding, the flooring will not act as a waterproofing barrier for the subfloor and/or any surrounding structure. Any damage to the subfloor and/or surrounding structure that is caused by standing water or flooding is not covered by this Warranty.

WHAT IS THE VIUS FLOORING PET-FRIENDLY WARRANTY?

RESIDENTIAL & COMMERCIAL INSTALLATIONS

When exposed to soiling from pets (domestic dogs and cats), the flooring will resist stains during the specific Limited Warranty Period for the applicable product. However, accidents should be cleaned up immediately, as the longer they sit, the more difficult they will be to remove. Any damage to the subfloor and/or surrounding structure caused by pets is not covered by this Warranty.

WHAT IS NOT COVERED BY THIS LIMITED WARRANTY?

RESIDENTIAL & COMMERCIAL INSTALLATIONS

- Damage caused by fire, flooding, exposure to standing water and/or intentional abuse.
- Damage caused by moisture to surrounding structure, walls, subfloor, fixtures, furniture, underlayment, moldings, trims, subfloor heating elements, or anything that is not the structural integrity or dimensional stability of the floor plank or tile.
- Damage resulting from mold and mildew growth due to prolonged exposure to moisture (except as indicated in the "What will Vius Flooring Do if Any of the Above Happens?" section herein). While moisture may not affect the structure of the plank or tile, when excessive moisture accumulates (and in particular remains undiscovered or unaddressed) mold and/or mildew growth can occur.
- Flooring that is installed outdoors.

- Indentation or damage from improper loads including high heels; spiked shoes; rolling loads; and/or chairs or other furniture not having floor protectors.
- Damage caused by abuse such as moving appliances across the floor without adequate protection. To protect your floor from scuffing and tears when moving appliances or heavy furniture, lay a plywood panel on your floor and “walk” the item across it.

- Minor color, shade or texture variations between samples or printed color photography and the actual material.
- Floors that are graded “irregular” or sold “as is” without warranty.

We recommend that your flooring be professionally installed by contractors who have demonstrated expertise in installing this type of flooring for residential/commercial use.

RESIDENTIAL INSTALLATIONS
